It feels as though the tide is changing on campus. New students are coming. Leaders are taking the challenge to invest in others. Freshmen are forming bonds and class identity. New campuses are gaining momentum. These last 8 weeks of ministry have been incredible as we start the year. 228 students joined us at our Fall Getaway from 6 campuses.

At Beloit College, around 25 students are consistently coming and 40 are coming half the time. We are praying the student leaders would have BIG VISION for more than a Bible study, that they would catch the mission to reach their campus and make disciples.

Last year, Beloit college attended our Fall Getaway for the first time. This year 12 students came! Including 4 men; a HUGE answer to prayer as our 1 key male leader has felt alone on campus.

Aditya, from Beloit, came as a last ditch effort in his faith. He wasn't sure he'd fit in but as he listened to the speaker, opened his Bible, and dusted off his faith, he found renewed vigor to pursue Christ and join community back home.

## Prayer Requests

For stewardship of new students. As I look at a doc now, I see 150 new students at Madison, 130 at Whitewater, and 10-15 at each small school, but limited staff resources to connect with them all. Please pray students would take ownership and have vision to reach and love these new students

The Madison College movement has grown this year with an influx of new and interested students. Praise God community is beginning to happen: students are discipling students, and fellowship is increasing.

Last newsletter, I wrote about Matthew. He trusted Christ the first day of school and met each week with me. We have gone through 5 foundational Christian principles. Pray for his most critical need-- Christian relationships to encourage him and challenge him.
